OUR CLIENTS DRIVE REAL-WORLD CHANGE. WE ACCELERATE IT.

Bizzell offers full-scale global and social impact assessments. Our team members and subject matter experts have vast experience in global health disparities, with an emphasis on improving worldwide health conditions by using data driven programs.
Greetings,

I am Dr. Anton Bizzell. I have the great fortune to be the Chief Executive Officer of The Bizzell Group (Bizzell), the third fastest growing Black-owned business in United States. This is a feat I did not reach singularly but through the cooperative efforts of many talented individuals. There is a Swahili proverb that states “Unity is strength, but division is weakness.” When I reflect on the greatest successes in history, there isn’t one that hasn’t been achieved without partnership. The sum of success is a diverse group of people galvanizing their talents to attain a common goal.

As an African-American CEO, I am personally invested in the prosperity and longevity of the African diaspora. In 2018, Bizzell was a proud sponsor of the African Growth and Opportunity Act (AGOA) forum for both the Private Sector and Civil Society meetings. We have been working to ensure AGOA’s success by combining businesses, NGO, and government officials that are interested in supporting AGOA’s goals. We also have supported health initiatives for several African nations and countries which are in post-Ebola recovery. Bizzell has a range of subject matter experts who have a wealth of experience in global health disparities, with an investment in improving worldwide conditions by using data driven programs. We are seeking opportunities to aid government agencies’ health and economic initiative programs. As a family physician and former Medical Officer with the U.S. Department of Health and Human Services (HHS), National Institutes of Health (NIH), and the Substance Abuse and Mental Health Services Administration (SAMHSA), I recognize the correlation between health and economic sustainability.

Bizzell, a U.S. Small Business Administration, SBA 8(a) firm, headquartered in Lanham, Maryland with a program office in Atlanta, Georgia, is a fast-growing company built on years of experience in the federal contracting space. I founded Bizzell with the intentions of fostering a positive global impact by working with ministries of health and economic development to create flourishing, sustainable communities. Bizzell, through our work with the U.S. Agency for International Development (USAID) and the Centers for Disease Control and Prevention (CDC), demonstrated our commitment to advancing the Nation’s Global Health Security Agenda by advancing public health interventions, policies, programs, and systems in response to current, emerging, and future public health threats.

In 2018, Bizzell was recognized by Inc. Magazine’s Inc. 5000 list as one of the fastest growing companies in America for the second consecutive year. In 2017, Bizzell was listed as the 3rd fastest growing black owned small businesses in the U.S., and the 137th fastest growing business in the nation. Although, I am rightfully proud of our success, I know there is always more work to be done. At Bizzell, we have a motto “Our clients drive real world change. We accelerate it.” As we build our company, I have a clear vision on how we will expedite the global difference. At Bizzell, we grasp the importance of partnership in our community and those within the diaspora.

As I stand before you, I am reminded of that famous Swahili proverb that says, “unity is strength; division is weakness.” When I reflect on the greatest successes in history, there isn’t one that hasn’t been achieved without partnership. This value I learned from my early days in the tobacco fields of North Carolina.

-Dr. Anton Bizzell
Opening remarks at Private Sector, AGOA Forum

Regards,

Dr. Anton Bizzell
CEO, The Bizzell Group
PRACTICE AREAS OF EXCELLENCE

HEALTH SERVICES AND RESEARCH
Leveraging extensive experience in health care services, Bizzell offers expertise to collaboratively develop innovative solutions to improve and promote positive health outcomes.

COMMUNICATIONS OUTREACH AND LOGISTICAL SUPPORT
Bizzell offers sophisticated conference planning and management services, with a nuanced understanding of all the moving parts, for global, national, regional, and virtual events. We deliver informed content and create engagement with the right target audience, at the optimal time.

TECHNOLOGY
We deliver world-class and innovative solutions to complex problems by providing expert approaches and applying technology and IT solutions to customers. Bizzell offers a cadre of experts who can quickly identify, implement, and maintain high-tech systems.

TECHNICAL ASSISTANCE AND TRAINING
Delivering best in class subject matter leadership and specialists to administer trainings and educational programming to enhance global knowledge and awareness of critical world issues and topics.
Our experts are committed to global health and economic development. We have supported and created programs focused on improving public health infrastructure, with training providers, licensed providers, and community workers. Bizzell aspires to train entrepreneurs how to efficiently sustain and expand their small businesses with an exchange program. This program will increase economic development where Bizzell is invested.
Bizzell Global’s vision is to improve the health and wellbeing of our communities. Bizzell staff has managed programs in Africa including Nigeria, Kenya, South Africa, Tanzania, and worked in Asia, including Thailand and has supported programs in Europe, as well as provided expert support in Haiti and the Pacific Islands.
AFRICAN GROWTH AND OPPORTUNITY ACT (AGOA) FORUM
Bizzell was a proud sponsor of the 17th AGOA Forum. We also supported the AGOA Private Sector Forum, organized by the Corporate Council on Africa. The theme was “Forging New Strategies for U.S.-Africa Trade and Investment.” It gave the opportunity for U.S. and African business leaders to engage senior African and U.S. officials and network with the goal of building new business partnerships.

CENTERS FOR DISEASE CONTROL’S DIVISION OF GLOBAL HEALTH PROTECTION (DGHP) AND THE GLOBAL HEALTH SECURITY AGENDA (GHSA)
Bizzell is responsible for documenting DGHP’s partnerships on global health security and global response and creating and maintaining an inventory of outbreak-related publications. Bizzell created and maintains a partnerships database with contact information for partners, special event information, and maintains a repository of communication materials publicizing DGHP analyses and science.

DEVELOPMENT LEADERSHIP INITIATIVE (DLI) GENDER INTEGRATION
Bizzell assisted USAID with it’s developmental leadership initiative (DLI) interns training on gender integration at missions across the globe that were backstops for project development officers. We also provided technical assistance and facilitated gender trainings that aimed to inform, empower, motivate, and build the confidence of USAID ASIA/ME Gender POCs/Advisors.
The Bizzell Group

**OUR WORK**

**NATIONAL CANCER INSTITUTE’S TOBACCO CONTROL RESEARCH BRANCH (TCRB)**

Bizzell staff supported meetings in Cape Town, South Africa and represented TCRB at 2018 World Conference on Tobacco or Health (WCTOH). This international conference drew participants from around the world, with a particularly strong presence with those across Africa, an area where cigarette smoking has seen a rise and expected to continue without strong tobacco control intervention.

**OFFICE OF AUTISM RESEARCH COORDINATION**

Bizzell staff supported the committee that coordinates all federal efforts concerning autism spectrum disorder (ASD), at the International Society for Autism Research (INSAR) 2018 Annual Meeting in Rotterdam, Netherlands. Bizzell staffed the IACC exhibition booth, managed shipping logistics, communications, and disseminated information.

**CDC’S HEALTH SYSTEMS RECOVERY AND RECONSTRUCTION OFFICE (HSRRO) PUBLIC HEALTH SUPPORT SERVICES**

Dr. Bizzell provided oversight for ten staff members who provided public health assistance to fulfill activities related to the (HSRRO) and assisted the Haiti Ministry of Health (MoH), CDC temporary duty (TDY) assignments and PEPFAR staff with cross-cutting support that included the strengthening of health information systems, public health surveillance activities, and diagnostic laboratory testing.
STRATEGY

Because no one size fits all, and every community, business and environment has its own unique challenges, Bizzell employs its 4D strategic approach to create tailored, realistic and workable solutions to every situation. Targeting government, Small to Medium Enterprises (SME), and non-governmental Organizations (NGO), we combine mapping, appreciative inquiry methodologies and technology to diagnosis of the problem, develop and deploy a customized solution, and determination progress at all stages of implementation evaluating and verifying if the solution works.

TRAINING AND TECHNICAL ASSISTANCE

Bizzell's industry-leading subject matter experts offer the latest innovations in training and technical assistance, creating a solid foundation for your goals.

POLICY AND COMMUNICATION

Our staff and consultants have an extensive background in policy and communication and can help you realize your vision for improvement. Bizzell provides customized consultation to enhance and support your public systems.

PUBLIC SYSTEM STRATEGIES AND INTERVENTION

Bizzell provides customized consultation to enhance and support your public health systems.
OUR GLOBAL IMPACT
BIZZELL SUPPORTS YOUR EFFORTS

ECONOMIC DEVELOPMENT
We provide economic technical services that promote broad-based growth and remove barriers to prosperity in emerging markets so that small and medium-sized enterprises grow, strengthen business associations and expand trade.

STRENGTHENING PUBLIC HEALTH SYSTEMS
We collaborate with public and private partners to design and integrate policies, operating procedures, and institutional structures to optimize health service delivery.

MONITORING EVALUATION AND LEARNING
We combine our experience in qualitative and quantitative evaluations with our expertise in fostering learning cultures, to promote informed decision-making, transfer knowledge and expertise to our partners and stakeholders, and build strong evidence-based data across multiple development interventions.
WHY CHOOSE BIZZELL

Bizzell is a partner of choice by federal, state, and local government agencies and private organizations. Our expert staff and consultants work on health, education, communications, research, technical assistance, human capital resources, and information technology projects that meet national priorities. Using best practices across multiple disciplines, we develop innovative solutions that build healthy, secure, and sustainable communities in our nation and globally.

1. CUSTOMIZED CONSULTATION
   Our staff of industry-leading experts provide a tailored assessment to determine the most efficient and effective path to achieving our clients’ goals. After creating a blueprint, Bizzell has the capacity to facilitate and audit the processes of our client’s initiatives.

2. DEDICATION TO EXCELLENCE
   Bizzell strives to provide the highest quality of services and products to our clients. We practice continuous performance improvement to exceed our client’s expectations. We are guided by strong moral principles: integrity and accountability, making us our clients’ trusted advisors.

3. COMMITMENT TO CHANGE
   Bizzell was founded with the goal of creating positive social impact through healthcare and economic development worldwide. We believe healthy people are productive citizens. Therefore, we are committed that every person has the opportunity to receive adequate healthcare and employment to sustain themselves and their communities.
